

Quit screwing around
guys, I've got games
to beat you both at
and our best year
ever to complete in

STYLE.

Someone get me
an accordion.
I'm taking you

DOWN.

**Come at
me, bro.**

Dear Reader:

Producing, sending, or forwarding a sexual picture in any medium, including computers and mobile devices of any person under eighteen years old is illegal. In fact, it's a felony. Even if the picture is of yourself! It's considered "child sexually abusive material". If you're seventeen and get caught, you'll be dealt with in the adult system instead of juvenile court and if convicted you'll be placed on the public sex offender registry for 25 years.

Remember, you don't have to agree with this, or think it's awesome. But, this is the law, and to avoid a lot of trouble that will follow you around for years and years you need to obey the law.

In summary: Don't freakin' take, send, or forward pictures with sexual content.

Sincerely,
Kent County Sexual Assault
Prevention Action Team

P.S. Check out <http://www.thatsnotcool.com> for some very creative ways to deal with online pressure or harassment and some pretty cool relationship advice too.
